Create a Yup'ik Dance Fan

Illustrate your stories with a feather dance fan called a

RECIPE

20 min activity

Get the Scoop on Homemade Ice Cream—Moose Fat to Bananas!

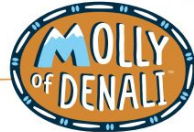

CRAFT

15 min activity

Make a Beaded Necklace

Make a necklace as unique as you are with this headband craft from

Storytime Stick Puppets

Puppets are a fun way to tell stories. Make puppets of Molly and her family and friends, and use them to retell a story you watched. Or you can take Molly on a new adventure by making up your own story!

Materials

- Printouts of characters and props
- Scissors
- Craft sticks or pencils
- Tape

A **prop** is an object, such as a book or a chair, that a character uses in a play, puppet show, or other performance. Using props helps characters tell a story.

Make Your Puppets and Props

1. Print the following pages on card stock or glue them to heavy paper. Use scissors to cut out the characters and props.
2. Place the puppet cutouts face down on a table.
3. Tape a craft stick (or pencil) to the back of each one. Position it so that half of the stick is below the bottom edge of the paper.
4. Now your puppets are ready.

Put Your Puppets into Action

There are lots of ways to play with your puppets! You can make your puppets act out a story or sing and dance. You can also learn a new fact about something you are interested in and have one puppet explain it to another.

PBS Learning Media for Educators

pbslearningmedia.org

The screenshot shows the top navigation bar of the PBS Learning Media website. On the left is the PBS LearningMedia logo. Next to it is a blue button labeled "FOR TEACHERS". To the right is the "Austin PBS" logo with a dropdown arrow. Further right are three buttons: "Search" with a magnifying glass icon, "Sign in", and "Sign up for free!". Below the navigation bar is a dark blue header with three links: "Subjects" with a dropdown arrow, "Grades" with a dropdown arrow, and "Student site" with an external link icon. The main content area has a large background image of a young boy looking down. Overlaid on this is the text "Bring the World to Your Classroom" in large white font. Below this text is a smaller line of text: "Austin PBS and PBS have curated FREE, curriculum-aligned videos, interactives, lesson plans, and more for teachers like you." At the bottom of this section is a search bar with the placeholder text "Search classroom resources..." and a magnifying glass icon.

teach.pbskids.org

- A collection of free and flexible, interactive courses for PreK-2 teachers.

- Teachers can earn 1 to 3 professional development hours.

- Teachers can learn anytime, anywhere and at their own pace with unlimited access to content for one year.

Featured Learning Paths

FREE RESOURCES TO ENGAGE YOUNG LEARNERS

Earn certificate hours and discover new tools to inspire young minds.

WHAT'S INCLUDED

- Free access anytime, anywhere, with a computer, tablet or smartphone
- Fun, interactive content designed for quick, flexible learning
- Unlimited access to learn on your own time and pace

PBS KIDS offers this **FREE** collection of flexible self-paced learning to help inspire teachers and provide support for the classroom. Spark new ideas and expand your skill set by starting a learning path from the catalog below.

Learning Paths are a series of short modules (15-30 minutes) that are skills-based experiences and include a range of interactive formats. The successful completion of all modules in a learning path leads to a certificate that may be eligible for state credit approval.

PBS KIDS Ready To Learn

Through the Ready To Learn Initiative, funded by the U.S. Department of Education, CPB and PBS are partners in developing high-quality educational media and resources to advance critical early learning skills for children ages 2-8 to help them succeed in school, work, and life. This collection represents the library of teaching resources created under five Ready To Learn grant cycles.
